One of the most popular coins offered by Paramount in recent months was the South African *proof* 2 Rand gold coin. This offer was so popular, in fact, that we immediately sold out and had to contact our South African source for an additional supply.

If you missed our original offering on this popular proof coin, then we have good news. **THE SOUTH AFRICAN 2 RAND PROOF GOLD COIN IS BACK!** Identical in size and gold content to the English sovereign, the 2 Rand is actually *much scarcer* because of its *low mintage*. For only $119, you may now add one of these popular proof 2 Rands to your collection. Each coin will come mounted in its own holder so it may be shown to admiring friends and family alike without fear of damage to the coin. And with the international gold market as strong as it is, *now* may be the best time to acquire this lovely coin. A SILVER Bicentennial Treasure

#2

Why are you saving copper-nickel Bicentennial coinage as a reminder of this country's two hundredth anniversary — just like millions of other people — when you can forever remember this historic anniversary with United States Bicentennial coinage made of *silver!* That's right! And, the silver Bicentennial coinage you can own is *brilliant Uncirculated,* unlike the gouged, scraped and dulled non-silver coins found in circulation.

These Bicentennial silver coins are the Washington quarter, Kennedy half dollar and Eisenhower dollar, each with their own unique Bicentennial design and dual 1776-1976 dates. All three were struck at the famous San Francisco Mint, are 40% silver, and are *government sealed* for lasting protection in a beautiful three-piece set. *None were ever released for circulation!*

By taking advantage of this offer, you may now add this desirable three-piece government sealed Bicentennial set to your collection for only $10. But hurry! Previous offerings have brought tremendous results. Order NOW to be certain of receiving *your* 1776-1976 Bicentennial silver coin set.

A Golden Commemorative — Issued for Only One Year!

In 1975, Bermuda quickly captured the collector's eye when it issued a *golden commemorative* — a specially designed $100 gold coin honoring the Royal visit to Bermuda of Her Royal Majesty Queen Elizabeth II of England and His Royal Highness, Prince Philip, Duke of Edinburgh. Collectors immediately took notice because this coin became the *first* $100 gold coin ever issued by Bermuda. The coin is 24.2 mm in diameter and is composed of 108 grains of .900 fine gold. Gracing the obverse is Arnold Machin's classic portrait of the Queen. The reverse honors the Royal visit by depicting Bermuda's historic Parliamentary Mace with the Royal Cyphers, the personal signature marks of the Queen and Prince Philip. Depicting the Parliamentary Mace only adds to the coin's already great appeal because it is the *first time ever* the Mace has appeared on *any* Bermuda coin!

Only seventeen coins are available! That's right! Even Paramount's huge inventory of world coins is so drastically low on this beautiful and popular coin that we only have seventeen brilliant proof examples available for immediate sale. *Only seventeen!*

Now is the time to place your order. A delay of even a few hours could result in a sold-out. To be certain you will be one of the seventeen fortunate collectors who will receive this popular only-year-of-issue gold commemorative coin — order today!

Together, these coins form a set not only of great historical interest, but also a set of great beauty and brilliance. Without a doubt, this set belongs in every world coin collection.

A MASSIVE SILVER COIN — the largest and heaviest sterling silver coin ever issued by any country!

From Jamaica — Issued to Commemorate the 10th Anniversary of Charles as Prince of Wales

$25 SILVER COIN

Diameter: 63 millimeters
(approx. 2½")

Weight: 2,100 grains
Composition: .925 fine sterling silver
Mint: Royal Mint of London
Maximum Mintage: 25,000 Proof Coins

$80 per Proof Coin (limit two)
$75 per Brilliant Uncirculated Coin (limit five)

To commemorate this historic occasion, Jamaica, a member of the Commonwealth of Nations, has issued a massive $25 silver coin. The obverse shows the Prince and the Investiture Regalia. It is the first time Charles has been depicted on a coin wearing the Regalia, and also the first time he has appeared on Jamaican coinage. The reverse bears the Jamaican Coat of Arms.

With a maximum of 25,000 silver proofs authorized, mintage is extremely low for such an impressive coin. This is much lower than most of the mintages of the ever popular Panama 20 Balboa coins (see chart) that have proven their outstanding investment value over the past few years.

The Panama coin at 61 mm and 2,000 grains is slightly smaller in size and weight than the Jamaica $25 coin. In addition, the Jamaica coin is a *one-year-only design.*

Considering these factors, we are recommending the 1979 Jamaica $25 Proof Silver Coin as a potentially valuable acquisition. We are, of course, basing our recommendation on past performances of similar items and our own experience. This does not constitute a guarantee of future increase in value.

Order your Jamaican Investiture coins *today.*

A "Must Have" Proof Set

Seldom has a recently issued world proof set moved to the forefront as quickly as the strikingly beautiful 1977 Bahamas Proof Set. In the two years since it has been issued, it has become the "key" set in the entire Bahamian series. This means it is a "must have" to thousands of collectors because no Bahamian collection can be considered complete without it. (This fact, by the way, has not gone unnoticed in recent months by a large number of astute buyers.)

A mere 10,812 Bahamas Proof Sets were issued in 1977. This is the third lowest mintage figure of all Bahamian Proof Sets issued since 1969, and the second lowest mintage figure since the design change in 1974. Yet, despite its limited availability, the 1977 set can be acquired for the remarkably low price of only $100. Compare this to the $60 price for a 1974 set (with over *eight times* the mintage) and the $100 price for the 1977 set appears even more amazing.

But this price may not always remain so low! Worldwide pressure on the available supply of attractive world proof sets, such as the 1977 Bahamas Set, is increasing. In light of this, we are not certain how long our limited inventory of the 1977 Bahamas Proof Set will remain — or, for that matter, how much longer we will be able to offer this set for only $100. If you have *any* intention of ever adding the 1977 Bahamas Proof Set to your collection, now is the time! Its price may never be lower nor the selection greater. Order today.

First Time Offered! South African Gold 1 Rands

This month, we bring you a Paramount first — South African gold 1 Rands. These beautiful proof coins are identical in design to the 2 Rands offered earlier this year. (An offer, by the way, which resulted in a complete sell-out!) They are 19.5 mm in diameter and are composed of .917 fine gold. The coin's obverse, featuring the Cape Settlement founder Jan Van Riebeeck, is artistically matched with its reverse which depicts the graceful Springbok Gazelle. Together, they form a coin of exquisite beauty.

We are fortunate to have recently acquired a small number of these attractive 1 Rand coins. Boasting sharp and fully struck designs set against immaculate proof fields, we are certain they would make a stellar attraction to any collection or portfolio. To this add the fact they were struck in limited quantities (often less than 20,000 for any one year) and you can understand why this offer may be another sure-fire winner!

Once again, only a limited number of these beautiful gold coins are available. Once sold, it may be a very long time before we could replenish our inventory. To be certain of receiving *your* gold 1 Rand, place your order *today!*

Scandanavia Silver

Coins from Scandanavia have long been known for their exquisite and often unusual designs and low mintages. Nowhere is this more evident than with coins from *Finland.*

This month we bring you a set of four different uncirculated Finnish *silver* commemorative 10 Markkaa coins. Without question, these coins are probably the most unusually designed, yet most beautiful coins you will ever encounter. And their sparkling silver brilliance only adds to their beauty!

Each four-coin set we offer comes mounted in a sealed, hard plastic holder designed expressly to protect the beauty and desirability of the coins. The four coins comprising this set are:

- **1967 10 Markkaa.** Marks the fiftieth anniversary of Finland's independence.
- **1970 10 Markkaa.** Issued to honor the one hundredth anniversary of the birth of J.W. Paasikivi.
- **1971 10 Markkaa.** Commemorated the tenth European Athletic Championships. This coin is particularly hard to find and is much sought after even in its native country.
- **1975 10 Markkaa.** Honors the seventy-fifth birthday of Finland's President Kekkonen.

A beautiful set to look at — an even nicer set to own. But you will want to hurry because a previous offering almost completely drained our inventory. Only a few sets remain, so ORDER TODAY!

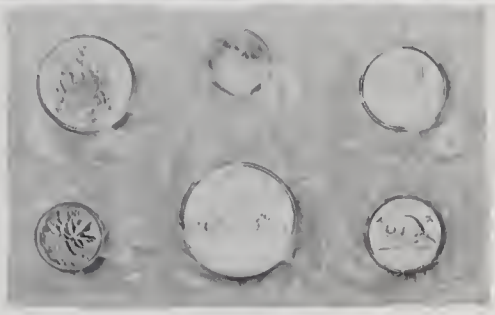
Become Canadian Acquainted



Every year since 1954, Canada has issued a special *proof-like* set for collectors. These sets contain an example of every Canadian coin issued for circulation for that year, from cent through dollar. But these sets *do not* contain general circulation strike coins. Instead, the six coins comprising these special sets were carefully struck under control conditions resulting in brilliant, lustrous coins having a proof-like appearance. Because of this, they are *extremely popular* with collectors, not only in Canada, but also in the United States.

Paramount is pleased to offer for your selection the 1976 Canadian proof-like set. Still in their original envelope of issue, these sets are as choice as the day they were struck. And priced at just $10 a set, you cannot afford *not* to add one to your collection. So place your order today and become "Canadian acquainted".

1974 India Proof Set

The 1974 ten-piece proof set from India is a stand-out among recently issued proof sets. Why? Because this impressive proof set features the 50 Rupee silver coin — *the largest silver coin issued by India!* A massive 44 mm in diameter, this coin attracts the attention of both collectors and non collectors alike. And when you add to this coin nine other equally attractive coins, you have created a proof set of unchallenged beauty!

Just 9,138 ten-piece 1974 India Proof Sets were issued. Naturally, during the five years following the set's issuance this small mintage has literally been scattered to the far corners of the world. Assembling a sufficient quantity to make this offer took considerable time and patience. But we succeeded and you may now add this attractive set to your collection for only $42.

Because of the limited number of sets available, we must restrict this offer to a first-come, first-served basis. That is why we suggest you place your order as soon as possible. Better still, call our toll free number and charge your set! (Use this number only for charge card orders.) By calling early, you virtually eliminate the possibility of receiving a sold-out. SPECIAL OF THE MONTH

Low Mintage Gold!

This month, Paramount is offering you the opportunity to acquire an attractive, low mintage, only-year-of-issue commemorative gold coin at a savings of more than $20 from its regular price! That's right! You may now purchase an uncirculated 1974 Turks and Caicos Islands 100 Crown gold coin — not for its regular price of $200 — but for only $179. You save $21!

This attractive 33 mm coin (larger than a U.S. half dollar) contains 278 grains of .500 fine gold. It was issued *only* in 1974 and honors the centennial of the birth of Winston Churchill, British statesman and former Prime Minister.

When considering the coin's uniqueness and historical importance, it is easy to understand why it is so popular with collectors and investors. But what makes this coin even more special is its *extremely low mintage*. Only 1,000 uncirculated specimens were struck — a mintage so miniscule that it accounts for only a small percentage of all potential buyers! For these reasons we are forced to offer this coin only on a *first-come, first-served* basis. But hurry because we only have a few choice specimens available. Once sold, it may be a very long time before we can replenish our inventory. To be certain of receiving *your* 1974 Turks and Caicos Islands 100 Crown uncirculated gold coin — and at this month's special price of only $179 — **ORDER TODAY!**
